Department of Transportation WorkSmart NY Training Program

January 25 - March 12, 2021 • 9am - 3pm

The Department of Transportation WorkSmart NY Training Program will provide a 7-week hybrid (classroom and workshop) training to prepare students for various construction jobs. Training includes construction math, blueprint reading, introduction to power tools and hand tools, introduction to concrete and forming systems, flagging and OSHA-10 for construction. Students completing the program will receive an OSHA-10 Construction Safety and Health card. Students will also participate in soft skills training, resume writing workshops and mock interviews before completing the program.
