

## Warehouse Supervisor

**Pay range: \$61-85k DOE**

\*\*This position is located in Syracuse, New York

*Bluefors and Cryomech have recently joined innovative forces to become a world leader in cryogenic technology and manufacturing. Now, as the new Bluefors, a company of 600 professionals from 50+ different nationalities and growing, we are proud to continue serving quantum technology, scientific and other select industries throughout the world.*

*Bluefors is a Finnish-based company formed in 2008 and quickly became a market-leader in ultra-low temperature systems. We design, customize and manufacture measurement systems that can provide a clean and quiet environment for scientific research. Cryomech, a world leader in cryocoolers and cryogenic systems, has been a Syracuse-based high-tech manufacturer since 1963, and will continue to be the brand of product lines from Syracuse.*

*Together we have a strong focus on the quantum computing and information community, and we are here to support scientists and industries go further in their endeavors. For this we have brought together the best minds from a variety of fields. Here we are curious to the core, have wide-range expertise, and have one mission: progress. Together we deliver systems all around the world and the markets for our products are constantly growing.*

### Position Summary

The Warehouse Supervisor will play a vital role on the Material Management Team. This position will have a direct impact on the day-to-day operation of the receiving and warehousing teams.

### Essential Duties and Responsibilities

- Supervise receiving and warehouse personnel and assign daily activities as needed.
- Establish, execute, and administer policies and procedures for warehouse activities.
- Promote timely and accurate bin transfers to support inventory accuracy.
- Ensure that materials are being received correctly and that they are put away promptly and in the appropriate locations.
- Coordinate with production and production control to make sure they have the materials needed to meet the production schedule.
- Assist in the hiring and training of new warehouse employees.
- Communicate current and potential stock outs to the appropriate teams for resolution.
- Implement First in First Out (FIFO) process in warehouse area.
- Align individual goals for self and others with work area/functional goals.
- Work with staff to maximize warehouse space and efficiency.
- Identify opportunities for long-term change within own work team and work towards implementation.
- Encourage safe work habits for all employees.
- Provide support for various teams in operations including but not limited to Manufacturing, Production Control, Inventory Control, Purchasing, Accounting, Engineering and R&D.
- Other duties as assigned

### Qualifications and Education Requirements

---

- High School Diploma/GED with 6-10 years of warehouse experience. Associate or two-year certificate with 3-5 years warehouse experience or training preferred; minimum of 3 years supervisory experience or equivalent combination of education and experience.

### **Employee Benefits**

- Bluefors offers a generous benefits package including health, dental, vision, 401K, long and short-term disability, life, training, tuition reimbursement, and Paid Time Off (PTO).

This role does not offer sponsorship for work authorization.

Bluefors Cryocooler Technologies, Inc. is an Equal Opportunity Employer. All qualified applicants will receive consideration regardless of disability status, veteran status, or any other New York State or federally protected characteristic.
